

TOPICS COVERED BY PROF(DR.) PRADEEP KUMAR SARAF
(HEAD OF THE DEPARTMENT OF OPHTHALMOLOGY)

2018:

- 1.papilloedema
- 2.Retinitis pigmentosa
- 3.High myopia
- 4.coloboma
- 5.Tonometry
- 6.Headache
- 7.The third nerve
- 8.CRAO
- 9.VKC
- 10.Macular hole
- 11.Pediatric cataract
- 12.Acute anterior uveitis

2019:

- 1.Slit lamp
- 2.Anti glaucoma drugs
- 3.Approach to ptosis
- 4.Retinal detachment
- 5.Classification of diabetic retinopathy
- 6.Complicated cataract
- 7.Grave's orbitopathy
- 8.Primary angle closure glaucoma
- 9.Dry eye
- 10.Thyroid Ophthalmopathy
- 11.Hypertensive Retinopathy
- 12.Herpetic keratitis
- 13.Central corneal opacity

2020:

1. Medical management of glaucoma
2. Anatomy and physiology of retina
3. Nystagmus
4. Retinoblastoma
5. Ocular cysticercosis
6. DFA
7. AION
8. Pseudoexfoliation
9. Traumatic glaucoma
10. Mature cataract
11. Keratoconus
12. Ocular side effect of systemic medication
13. Intraocular pressure
14. OCT
15. Electrophysiological tests of eye

2021:

1. Phacoemulsification
2. pre operative evaluation of cataract surgery
3. Complications of cataract surgery
4. Normotensive glaucoma
5. Case presentation –PDR
6. Bacterial and fungal corneal ulcer
7. Lens subluxation
8. Visual fields to label primary glaucoma
9. ARMD
10. CRVO

11.Gonioscopy

12.Endophthalmitis

13.Anti-VEGF agents
